Integrations Directory

A new place for anyone to quickly see which integrations are available through Bluebeam.

integrations.bluebeam.com

Global Public API Expansion

Availability of our Public API in all supported Bluebeam regions.

Migrations

Completed integrations migrations to our new API Gateway.

Ongoing

New Integrations

New technology partners continue to build connected experiences with our Public API! Our integrations directory has the latest on Plugins, DMS, and Public API based integrations.

Markups API v1

Users can now pull in markup data in the markup list via the Public API and sync markup statuses bi-directionally.

New Developer Experience

We made it easier for developers to find documentation and get started in building an integration with Bluebeam.

Integrations Support Hub

A testing environment for partners to test their applications before being submitted to production.

Today!

BBDN

Re-introducing the Bluebeam Developer Network to support our developers and integration partners.

Bluebeam Developer Network

The screenshot shows the homepage of the Bluebeam Developer Network. The header features the Bluebeam Developer Network logo, a 'Resources' dropdown, a 'Join BBDN' button, and a 'Login' button. The main content area has a dark blue sidebar on the left with 'OVERVIEW' and 'DOCUMENTATION' sections, and a light blue main area with a 'Get started in the Bluebeam Developer Portal' heading, an info icon message, and a 'Choose your path:' section with a list of links. A 'See also:' section is at the bottom, and social media icons are on the right.

Get started in the Bluebeam Developer Portal

i The Bluebeam Developer Portal, for integrations development, is only available to active customers, channel partners, and software partners in the US, AU, and DE regions.

This page is your guide through our new Developer Portal. We recommend that you open it in its own tab as you go through the steps in a separate tab.

Choose your path:

- New to Bluebeam's API? Head down to [Platform overview](#).
- Migrating an existing integration to our new platform? See our [Migration Guide](#).
- Want to quickly make a call? See [Get an access token](#).

DMS Integrations on Web

Where We Are Today

SharePoint and OneDrive

Demo

What's included

- Directly mark-up SharePoint and One Drive files
- Changes Save Automatically
- No Data Duplication!

The screenshot shows the Bluebeam interface with a sidebar on the left and a main content area on the right. The sidebar is titled 'BLUEBEAM' and 'A NEMETSOCH COMPANY'. It has a 'Documents' section and a list of items: 'My Workspace', 'Studio Projects', 'Studio Sessions', and 'Labs'. The main content area is titled 'Documents' and shows a table of connected accounts. The table has columns for 'Account Name' and 'Added On'. The data is as follows:

Account Name	Added On
OneDrive (dvallejo@bluebeam.com)	Sep 21, 2025
SharePoint (dvallejo@bluebeam.com)	Sep 21, 2025
Procore (dvallejo@bluebeam.com)	Aug 21, 2025
My Documents	May 19, 2025
Shared With Me	May 19, 2025

At the top right of the main content area, there are 'Add Account' and 'Logout' buttons.

Procore Documents

Demo

The screenshot shows the Bluebeam interface with a sidebar on the left and a main content area on the right. The sidebar is dark blue and contains the following navigation items:

- Documents
- My Workspace
- Studio Projects
- Studio Sessions
- Labs

The main content area shows a breadcrumb navigation path: [Documents](#) / [Account \(dvallejo@bluebeam.com\)](#) / [Bluebeam](#) / [Airport Project](#). Below the path is a table listing files:
