

# Breaking Barriers Between Design & Review

The ACC – Bluebeam Connector

Ken Phelps  
Sr. Product Specialist  
Arkance

# Presenter

**Ken Phelps** is a Senior Product Specialist with Arkance. He has been teaching users how to effectively use design and design review software for over 25 years. Ken has trained thousands of users from large and small companies on the best practices of various Autodesk and Bluebeam products. For almost the last 10 years he has focused exclusively on Bluebeam products. Ken is a Bluebeam Certified Instructor and Consultant.

# Agenda

- Overview of the Autodesk Construction Cloud to Bluebeam Connector
- Live look at how it works
- Next steps on how to get involved

 **AUTODESK**  
Construction Cloud

 **BLUEBEAM**

Streamline your  
workflow by sending files  
directly between  
ACC and Bluebeam  
**for seamless collaboration**

# ACC-Bluebeam Connector

 **AUTODESK**  
Construction Cloud

## Project Management Solution

ACC Docs, Build, Sheets, Models,  
Reviews, Submittals, RFIs ...

Best for project management and  
version control working with models  
and related documents.

  
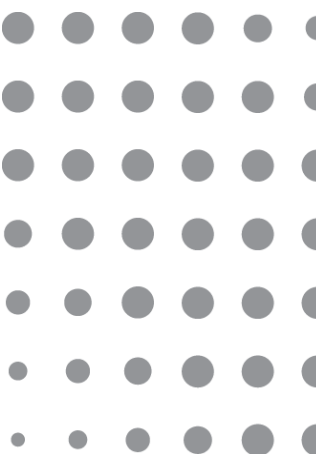

**BLUEBEAM**

## Markup Management Solution

Bluebeam Studio Session & Project  
Multiuser markup collaborations

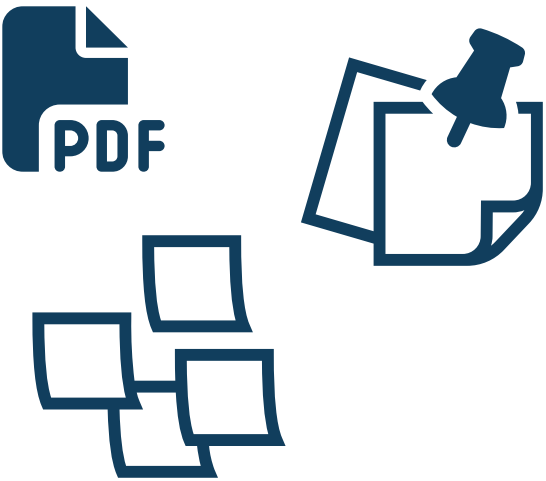

Best tools and features for markups  
and collaboration during reviews.

# ACC-Bluebeam Connector

Share and update PDFs from ACC  
to a Bluebeam Studio to collaborate

 **AUTODESK**  
Construction Cloud

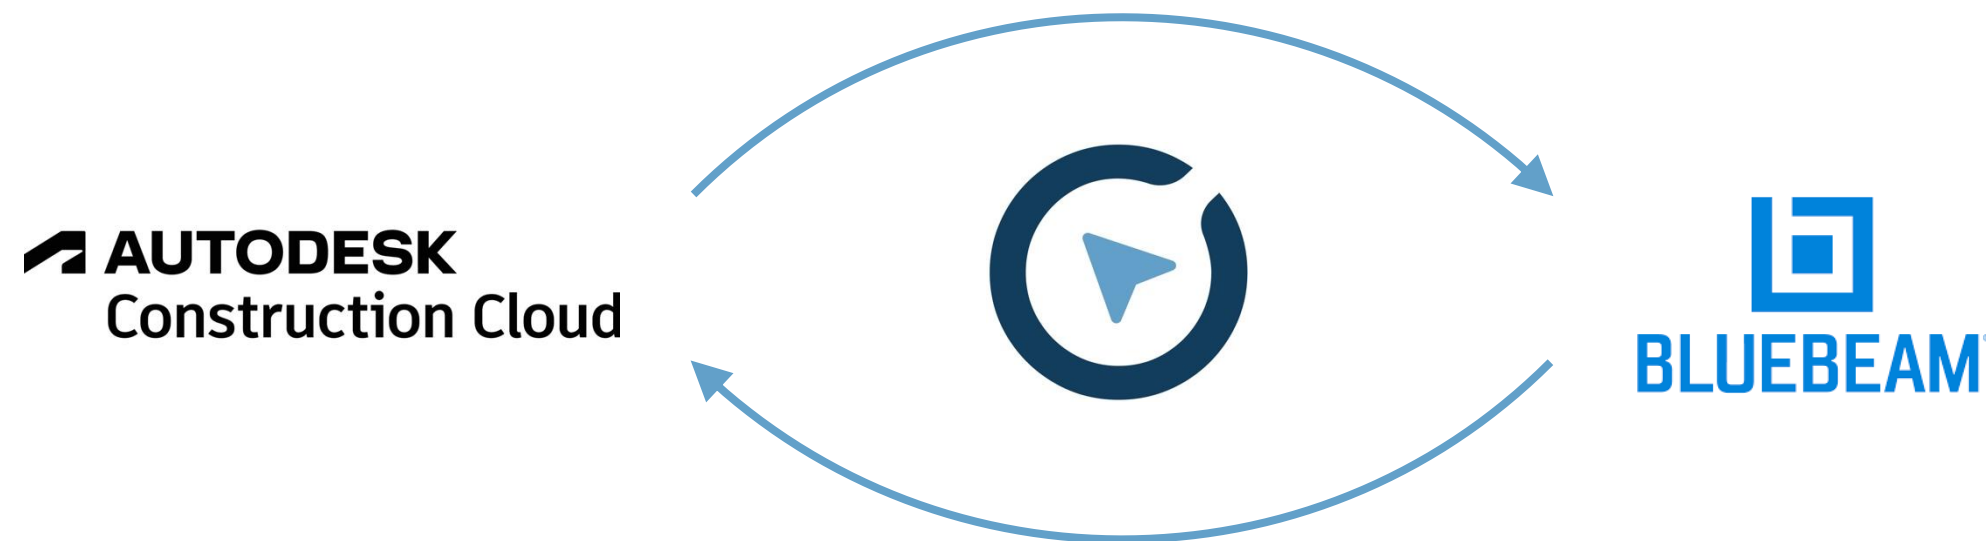

Save PDFs with markups  
From Bluebeam Studio  
back to ACC

# ACC-Bluebeam Connector

The ACC-Bluebeam Connector replaces hours of manual markup coordination with a smooth, automated data flow between project members using Bluebeam Studio and ACC.

Eliminate friction from the markup process to review faster, with less errors, while keeping your project data and teams in sync.

— Without changing the tools you already trust.

# Key Benefits

## **Get the Job Done Faster – Reduce time spent by 90%**

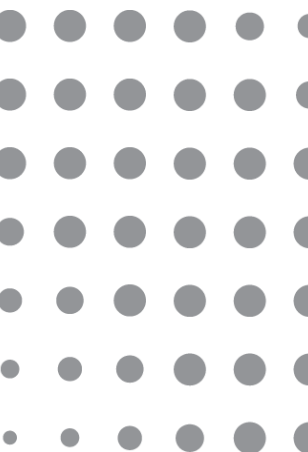

- Faster workflow to sync ACC & Bluebeam with fewer manual steps
- Speed up approvals with real-time access and collaboration

## **Markup with Confidence**

- Unlock the full power of ACC and Bluebeam—no compromises
- All markups on the latest version, reducing costly errors and rework

## **Maintain a Single Source of Truth**

- Full traceability and version control across platforms
- Ensure alignment between design and field teams
